

Name: Dr. Eva Kassi

Associate Professor of Molecular Endocrinology and Biochemistry

Address: 1st Department of Propaedeutic and Internal Medicine, National and Kapodistrian University of Athens, NKUA, LAIKO General Hospital of Athens 17 Agiou Thoma street, 11527, Athens

Tel: 213-20160934, 210-7462699

e-mail: ekassi@med.uoa.gr

Dr. Eva Kassi is Endocrinologist and Associate Professor of Molecular Endocrinology and Biochemistry in the Department of Biochemistry, Medical School, National and Kapodistrian University of Athens (NKUA), Greece. Dr. Eva Kassi graduated with distinction from Aristotle University of Thessaloniki, Medical School in 1991. She then completed her internal medicine training and residency in Endocrinology, Diabetes and Metabolism at the Department of Endocrinology, Diabetes and Metabolic Diseases, “G.Gennimatas” General Hospital of Athens, and she became a certified endocrinologist (2001). She was research fellow at the Department of Endocrinology and Metabolic Diseases at the University of Leiden, the Netherlands (2000).

She received her PhD (2004) in Biochemistry. At 2013 she was appointed as Consultant Endocrinologist at the Unit of Endocrinology, Diabetes Mellitus and Metabolic diseases of 1st Department of Internal Medicine, at “LAIKO” Hospital, University of Athens, Greece. From March 2020, she is working at the Unit of Endocrinology Diabetes Mellitus and Metabolic diseases of the First Department of Propedeutic and Internal Medicine “LAIKO” hospital with clinical, research and teaching commitments.

She is the Representative of “LAIKO” General Hospital of Athens who will participate as a member of the board of the European Reference Network on rare endocrine conditions (Endo- ERN) in the field of calcium and phosphate metabolism disorders and rare adrenal disorders. She is also co-ordinator of the Center of Excellence for the disorders of calcium and phosphate metabolism (“LAIKO” General Hospital). She is co-ordinator of the Post-graduate course of NKUA “Metabolic Bone Diseases” and head of “Molecular Endocrinology Group” (Department of Biological Chemistry, Director Prof. A.G Papavassiliou).

She is member of the working group of Bone Section of the Hellenic Endocrine Society which issued guidance on optimal management of patients with parathyroid disorders in everyday clinical practice within the Greek health care setting.

She is author or coauthor of 112 peer-reviewed publications. She is also co-author of a significant number of international textbooks and electronic volumes (four chapters in EndoText.Ogr) Monographs, Books and Chapters in National Books. She is member of the Editorial Board of several journals (“Molecular Cellular Endocrinology” “Hormones”, “Journal of Geriatric Cardiology” etc). She currently serves as a regular peer-reviewer for several journals (32 in total).

Her research team is comprised of one post-doc, 4 PhD students and 2 Msc students. Her scientific research (project’s leader) has been funded by National Strategic Reference Framework (NSRF), by National and Kapodistrian University of Athens and by Hellenic Endocrine Society.
